Re: Gifting of Mobile Medical Clinic to Campbell County Public Health

CCSD is requesting to transfer ownership of our mobile medical clinic to an agency partner, Campbell County Public Health (CCPH.) CCPH has the ability and the staff to use the mobile medical clinic to increase vaccine rates, public health awareness, medical and health counseling, and other situational health services. The Health Resources and Services Administration has given us permission to make this transfer, and we are asking the Board to approve this action, as well.
